

## Computer version

### Find the version number.

- Under the wrapper, on the inside frame close to the Honda engine there is a 2 controller kit back to back. The smaller one (black) is the receiver for the remote steering and the biggest one (grey) is for the Auto-Pilot.
- In the picture, follow the arrow to get the location of the version number.
- Computer Version number should start by **MC024-104-XXX**

**Tool needed:** None

**Time required:** 2 minutes
