ANDERSON

Verification and Association of the remote control (TAC08A)
2013 and before

1) Open the computer door with a flat head screwdriver.
2) Turn on the computer (pull out emergency stop button).
3) Turn on the remote control.
4) Press the black button one time (photo 001).
5) With the remote press the button 2 (ASS).
6) Wait 4 seconds.
7) With the remote press the button 4 (Ass complete).

The computer and the remote should now be associated.
Repeat this procedure if needed.

If the **TAC RF- ERROR** displayed on the remote, you have to send back for repair or to replace. Contact your dealership with the part # 315011 for replacement.
